

LSE Project

Writing E-Mails

Email of Update:

You are working on a group project, and your team leader has asked for a status update. Write an email updating them on the progress made so far, any challenges faced, and the expected completion date.

Email:

Dear Narasimha,

I am writing to provide a detailed update on our group project. So far, we have completed the project research and finalized the project requirements. The team has also divided the work into specific modules and completed the main development tasks assigned to each member. The individual modules are now ready, and we are currently integrating them into the complete project.

At present, we are focusing on connecting the modules, checking the overall functionality, and fixing errors found during testing. One of the main challenges we faced was coordinating the work of all team members and combining the separately developed modules, which resulted in a few minor delays.

We plan to complete the module integration by 10th October 2026, finish error fixing and functional testing by 13th October 2026, and complete the final review and documentation by 15th October 2026. The final version of the project will be ready for submission after this review.

Please let me know if you need any further details regarding the current project status.

Best regards,
Lohith Sadhu
