About

I am a first-year B.Tech Electronics and Communication Engineering (ECE) student at KL University with a strong interest in both hardware and software. I enjoy creating innovative projects, especially in the field of IoT, and exploring how technology can be used to solve real-world problems. I have a growing knowledge of Java and am continuously improving my programming, problem-solving, and technical skills. I enjoy working with electronics, experimenting with hardware, learning new technologies, and combining hardware with software to build practical solutions. I am eager to gain hands-on experience, collaborate with others, and continuously develop myself into a skilled and versatile technology professional.

About

'm a first-year B.Tech Computer Science student at KL University Hyderabad, with a growing interest in software development, coding and Artificial Intelligence (AI). I've always been curious about technology and how it works, and I'm looking forward to learning how I can use it to solve real-world problems.As I'm still at the beginning of my journey, I'm focusing on learning the fundamentals of programming and building a strong foundation in computer science. I haven't worked on any major projects yet, but I'm keen to put what I learn into practice, explore new ideas and gain hands-on experience along the way.I'm currently learning Java and gradually developing my programming skills. I know I still have a lot to learn, and I see that as an opportunity to improve, take on new challenges and learn from my mistakes. I enjoy exploring new concepts and believe that consistency, curiosity and a willingness to learn are important for growth.I'm looking forward to opportunities to learn from experienced professionals, gain practical experience through internships and work on projects that help me grow as a developer. I'm also happy to connect with fellow students and professionals who share an interest in software development and AI. I believe every step is a learning opportunity, and I'm excited to see where this journey takes me. Let's connect!
